FOREWORD

DEAR SIRS,

We take pleasure in presenting you herewith our catalogue for the season 1937-1938, giving a list of the articles we grown and handle and a description as to the varieties and sizes obtainable.

On account of the present unsettled conditions in the nursery export trade, due to the rates of exchange of the different currencies and changes taking place in import and export regulations, prices are often changing during the season. When ordering later in the season, we shall be pleased if you will write us for definite prices again when placing your order.

Yours faithfully,

M. Van Damme-Standaert.

NEW AZALEA INDICA (Standaert's Ideal)

We are the growers of one of the best Novelties in the Azaleas Indica; namely an improved Paul Schäme, named **STANDAERT'S IDEAL**.

This new variety is an hybridization of Paul Schäme × Vuylstekeana, being of early flowering and very suitable for forcing. It has a very nice double flower, red orange, and is a very strong plant.

We shall have only a small quantity of this variety available for delivery in next Autumn, we therefore beg to advise our customers to try it with a few plants, in order to see the result, and to place their orders as soon as possible.
